Heatlight VLP20 infrared paint dryer

Victory's Heatlight range of automotive paint dryers has many options for both large and small jobs. The VLP20 is an infrared dryer for use on smaller repairs. Extremely mobile and flexible, it allows each cassette to be adjusted and locked into position. Height adjustment is made using the lockable sliding mechanism.

VLP20

This flexible system allows each cassette to be adjusted and locked into position around the contours of the vehicle body, ensuring maximum area coverage. The drying cycle has all the features of larger systems with flash and bake controls both for temperature and time, automatically switching from flash to bake.

Applications

- Small repairs
- Preheating prior to spraying

Control panel

Electronic power and time control with flash and bake modes up to 99 minutes. 50% power on flash and 100% power on bake.

3 preset memory function.
