

Informations:

- **Gummil benefits:**
 - Environmentally friendly, Safe to use, VOC free, waterborne, free of noxious odors, non-toxic.
 - Easy to use: The product is used efficient when using a good brush or roller.
 - Cost saving: Installation times are greatly reduced, which will save labor costs.
 - Outstanding performance: Excellent bond to all surfaces, without seams or overlaps.
 - Enormously reliable: Product has been tested and is guaranteed for years of great performance. Is not sensitive to temperature fluctuations and is at least 40 years resistant to UV radiation.
- **Application:**

For sealing, protect, and repair of various materials. Adheres to almost all surfaces such as concrete, stone, metal, bitumen, wood, PVC, zinc, etc. For floors, walls, seams, joints, penetrations and construction parts. Also very suitable for indoor and outdoor applications such as basements, gutters, pipes, frame connectors, window sills, ground level details and flat roofs. Furthermore perfectly applicable to horticultural, pond and pool building.
- **Processing:**

Use at temperatures above 5°C. Make sure the surface is dry, clean, and free of dust and grease. Stir manually for about 5 minutes. Apply with roller or brush with a minimum thickness of 2 mm. Curing will begin immediately after application. Within 24 hours the product will, depending on the applied amount and weather conditions, have been fully cured.
- **Specifications:**
 - Minimum 1000% permanently elastic
 - Water- and airtight
 - Adheres to almost all surfaces
 - Protects against corrosion and erosion
 - Easy to apply
 - Not sensitive to temperature fluctuations
 - UV resistant
 - Salt and chemical resistant
- **Ecological:**
 - Safe to use
 - Not flammable
 - VOC-free
 - Waterborne
 - Free of noxious odors
 - Non-toxic
