

# Insect-OUT®

## Mosquito Concentrate 100 ml

Mosquito-free gardens, terraces, campgrounds etc. - for up to 48 h !

- Immediate action
- For up to 1000 m<sup>2</sup>
- Concentrate to be diluted with water
- With the active ingredient of chrysanthemum

**Insect-OUT® Mosquito Concentrate** keeps large areas like gardens, campgrounds etc. free of mosquitoes – for up to 48 hours. Diluted with water and applied in the immediate vicinity, Insect-OUT® Mosquito Concentrate allows you to relax outdoors!

**Use:** Dilute **Insect-OUT® Mosquito Concentrate** with water (5 - 10 ml per litre of water) and use an orchard sprayer or spray bottle to generously spray shrubs, trees and lawns or meadows from a distance of about 40 cm. Use more concentrate in case of extreme mosquito problems. The insecticide starts to work after a few minutes. The mosquitoes will avoid the surroundings treated with **Insect-OUT® Mosquito Concentrate**.

Repeat treatment after 48 hours the latest. To protect bedrooms and rooms inside the house, **Insect-OUT® Mosquito Concentrate** can also be applied to the outside window frames and sills. Clean the equipment used with a little water and detergent.

100 ml for up to 1,000 m<sup>2</sup>
